Education

University of California, San Diego Sep 2025 – Dec 2026
Master of Science in Data Science, GPA: 4.00/4.00 *San Diego, CA*
- **Coursework:** Algorithms for Data Science, Efficient AI, AI Engineering, Machine Learning, Statistical Modeling, Stochastic Optimization

MPSTME, NMIMS University Jun 2019 – Feb 2023
Bachelor of Technology in Information Technology, GPA: 3.65/4.00 *Mumbai, India*
- **Coursework:** Data Structures and Algorithms, Advanced Algorithms, Object-Oriented Programming, Software Engineering, Database Systems

Product & Technical Experience

Amazon Web Services ***[Python, AWS, Docker, CDK, CI/CD]*** Jun 2026 – Sep 2026
Software Development Engineer Intern, Amazon Connect *Seattle, WA*
- **Product Ownership:** Owned delivery of the **Eliza Staff Scheduling Service**, translating real-time staffing and downstream customer requirements into product and technical requirements; partnered with engineering and stakeholders across architecture, development, testing, and production rollout.
- **Product Optimization:** Identified latency as a critical constraint for real-time and agentic use cases, evaluated architectural tradeoffs, and shipped service optimizations that reduced **p99 latency by 80%**, improving responsiveness and enabling faster staffing-metric recomputation.
- **Cross-Functional Delivery:** Drove iterative development through design reviews, testing, CI/CD validation, and canary rollout; coordinated across teams on **AppSec, threat modeling, dependencies, and production reliability** to deliver a scalable customer-facing service.

FedEx ***[Pricing Strategy, Product Management, Python, SQL, SAS, Power BI]*** Jun 2023 – Jul 2025
Pricing Strategic Analyst & Product Manager Associate *Mumbai, India*
- **Pricing Strategy & Commercial Growth:** Developed **customer-specific pricing models and strategic pricing scenarios** for ER and EG customers, incorporating shipment volume, revenue, competitive positioning, customer requirements, and profitability tradeoffs; partnered with **Sales, Finance, Revenue Management, and Operations** to develop pricing recommendations and support commercial negotiations across a **$20B+ pricing portfolio**.
- **Shadow Product Manager – Pricing Automation:** Acted as a **shadow Product Manager** for a pricing automation bot, gathering requirements from Pricing and Sales stakeholders, mapping existing workflows, translating business needs into product requirements and user stories, prioritizing automation opportunities, and partnering with technology teams through development, testing, stakeholder feedback, and iterative delivery.
- **Data-Driven Product Development:** Built and evaluated multiple pricing models using **Python, SQL, SAS, clustering, Random Forest, and optimization**; translated customer, revenue, and operational insights into strategic recommendations and automated workflows, reducing turnaround time by **80%** and eliminating **40+ hours/month** of manual processing.

RevsCosmetics ***[D2C, Product Strategy, Product Development, Pricing, Marketing]*** Dec 2020 – Jun 2024
Founder & CEO *Mumbai, India*
- **End-to-End Product Development:** Owned the complete product lifecycle from identifying customer needs and market opportunities through product ideation, formulation, sourcing, pricing, launch, customer feedback, and iteration; fulfilled **500+ orders** and generated approximately **10L in gross revenue**.
- **Product & Go-to-Market Strategy:** Used customer feedback, sales performance, retention, and segmentation insights to shape product portfolio, pricing, positioning, and go-to-market strategy; built a **virtual lip-gloss try-on experience** and analytics dashboard to improve digital product discovery and customer engagement.
- **Entrepreneurship, Marketing & Personal Branding:** Led product marketing, customer acquisition, partnerships, social media, and brand strategy, growing the business to **10M+ social media engagements** while building a personal brand at the intersection of **technology, entrepreneurship, beauty, and lifestyle**.

Product & Technical Projects

Early-Warning Churn Detection Pipeline *[Python, SQL, scikit-learn, Power BI]* 2025
- Built an **early-warning churn detection pipeline** using customer behavioral and transactional data, developing predictive features, classification models, and Power BI monitoring to identify at-risk customers and enable proactive retention decisions.

Leadership & Extracurricular

Women in Tech Community 2020 – Present
Community Leader & Mentor *India / Global*
- Mentored women through **WhatsApp and LinkedIn communities** as a **SWE EDGE Mentor** and **LinkedIn Mentor**; selected as an **Adobe Women in Tech Scholarship Finalist**.

Lifestyle & Luxury Content Creation 2020 – Present
Creator, Personal Brand & Brand Partnerships *Global*
- Built a **lifestyle and luxury personal brand with 15K+ followers**, developing brand propositions, UGC strategies, and commercial collaborations with brands across **EU and EMEA**.

University of California, San Diego 2026
Teaching Assistant *San Diego, CA*
- Delivered **technical presentations and instruction** for Introduction to Python, translating programming concepts into clear, accessible learning experiences.

Skills

- **Product Management:** Product Strategy, Product Development Lifecycle, Requirements Gathering, User Research, Product Roadmapping, Feature Prioritization, Product Analytics, Launch Planning, Iterative Delivery, Stakeholder Management, Cross-functional Collaboration, Agile / SDLC
- **Business & Commercial:** Pricing Strategy, Business Modeling, Unit Economics, Market Analysis, Customer Segmentation, Revenue Analytics, Forecasting, Data Analysis, Commercial Strategy, Go-to-Market Strategy
- **Technical:** Python, Java, C++, SQL, R, JavaScript, TypeScript, AWS, Docker, REST APIs, PostgreSQL, Redis, CI/CD, Git, System Design
- **AI / ML:** Machine Learning, Predictive Modeling, NLP, Generative AI, RAG, AI Agents, TensorFlow, PyTorch, XGBoost, Vector Databases, LangChain, LangGraph
